

K-LOVE presently serves the Myrtle Beach, S.C. and Wilmington, N.C. area. Even now the signal does not come in very well on the FM station. We only have 1 other christian music station to listen to in our area. To have the format of the present stations changed would hender us from receiving any christian music at all. This is the only station I listen to at home and in my car. There are to many other types that I don't care for. The programming on K-LOVE is clean, free of fowl language and suggestive remarks which I don't care to listen to. Also, being free of commercials keeps the flow of music nicer to listen to. Please leave my K-LOVE station alone.
Thank you
